The opening lead: ♥7, (4th best).

We have 7 sure tricks: 2 in ♣, 2 in ♦, 1 in ♥, 2 in ♠.

The plan: We will develop 2 extra tricks in ♦.

The problem: If we immediately win with the ♥A, then when we lose the inevitable ♦ trick, the opponents may be able to cash 4 tricks in ♥ and we will go down.

The solution: We have to hold-up the ♥A twice! (to cut communications in the suit).

The hand play:
